ADDRESS

TO THE

Nervous and Debilitated,

Whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable; If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? the bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart.

How many men, from the effects of excesses, have brought about that state of weakness in Sexual Organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have used remedies for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility and all diseases of the Sexual Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness and that of posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S

Fluid Extract Sarsaparilla,

The Great Blood Purifier and Beautifier of the Complexion.

HELMBOLD'S

EXTRACT SARSAPARILLA

WILL RADICALLY EXTERMINATE FROM THE SYSTEM SCROFULA, SYPHILIS, FEVER SORES, ULCERS, SORE EYES, SORE LEGS, SORE MOUTH, SORE HEAD, BRONCHITIS, SKIN DISEASES, SALT RHEUM, CANKERS, RUNNINGS FROM THE EAR, WHITE SWELLINGS, TUMORS, CANCEROUS AFFECTIONS, NODES, RICKETS, GLANDULAR SWELLINGS, NIGHT SWEATS, RASH, TETTER, HUMORS OF ALL KINDS, CHRONIC RHEUMATISM, DYSPEPSIA, AND ALL DISEASES THAT HAVE BEEN ESTABLISHED IN THE SYSTEM FOR YEARS.

Being prepared expressly for the above complaints, its Blood-Purifying properties are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color, and restores the patient to a state of health and purity. For purifying the blood, removing all chronic constitutional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Pains and Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Erysipelas, and all Scaly Eruptions of the Skin, and Beautifying the Complexion.

HELMBOLD'S

CATAWBA GRAPE PILLS,

The Most Reliable Purgative and Cathartic Known—Superseding Salts, Magnesia, etc.,

in Sick or Nervous Headache, Jaundice, Indigestion, Constipation, Dyspepsia, Billiousness, Liver Complaints, General Debility, etc. No nausea, no griping pains, but mild, pleasant, and safe in operation.

The CATAWBA GRAPE PILLS

Are purely vegetable, being composed of

CATAWBA GRAPE JUICE

AND

FLUID EXTRACT RHUBARB.

Beware of those cheap patent pills, carelessly prepared by inexperienced persons—vended in wooden boxes—most of which contain either calomel, mercury, or other deleterious drugs.

FRENCH

FIRE-PROOF

LAMP CHIMNEYS.

These chimneys, which are now for the first time offered to the public, possess all the essentials of a heat-resisting Chimney. They are well made, of a superior quality of glass, each one finished smoothly at the bottom, and being carefully annealed or tempered, will not break from the most intense heat of a lamp flame.

A trial of their merits will convince the consumer that, although costing a trifle more than the ordinary class of Chimneys in use, they will prove a source of much economy in the use of Kerosene, a saving of untold trouble and annoyance, and a preventative of many accidents hitherto resulting from the breakage of Chimneys upon burning Lamps.

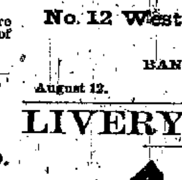
LIVERY STABLE.



The undersigned, having retired from the Stage and Livery business at Dexter has resumed the Livery business among his old customers and acquaintances at Bangor.

With the exception of the hack and coach business,

The entire Stock and Stand of Henry F. McLaughlin, on Central Bridge,

has been purchased by the undersigned.

To the equipments already belonging to this well known and popular establishment has been added an extensive assortment and variety of teams.

It will be the endeavor of the proprietor to accommodate the public taste in every variety and extent, and at reasonable prices; and by his undivided attention to the business, to make the old McLaughlin Stand unsurpassed by any other livery establishment in the state of Maine.

The very best of experienced and courteous attendants will be employed.

Particular care and attention will be given to the boarding of horses.

At the same office and stand, DR. HENRY F. McLAUGHLIN will continue all sorts of business for Coaches, Hacks and Cabs, as heretofore.

TAYLOR'S

ICE PICK!

The Pick is of simple construction, consisting of a flat steel Pick, cast in a Metallic head. It supplies a want long felt in the community. The Point *cannot* become loose, and the weight of the metallic head gives force and direction to the blow, and cuts or breaks the ice without splintering or wasting it.

The price at which it is offered puts it within the reach of all ice users. It will save its cost many times during the season.

Important Notice

TO

Ship Owners.

AMERICAN LLOYDS OFFICE, Burling Slip, New York, Jan. 31, 1871.

The Register for 1871 is now ready. The January Supplements will contain the introduction to the history of the "Register." In order to supply the demand for the Exposition, an extra edition will be printed and furnished gratuitously to all parties in possession of a book called the "Record," or a book called the "American Lloyds Universal."

HARTSHORN & KING.

The American Lloyds Register, being the acknowledged standard of American surveys of shipping, approved by underwriters generally, and adopted by the Peruvian Government as a standard for the selection of ships to carry Guano, also by the California Board of Underwriters and the West India Lloyds at Havana, &c., &c., it is important to owners to have their Vessels surveyed and classed in its "Register." Having competent surveyors throughout the State of Maine, I am prepared to order or make surveys promptly, of those apply, and to grant certificates and the "Standard Rules" issued by the Board. Also parties can be supplied with copies of the American Lloyds Register, for it, by sending their address to me at the National Insurance Company, Bangor.

J.F. Babcock, D. D. S.

Graduate Penn. College of Dental Surgery.

SURGEON DENTIST.

Having returned to Bangor from California, in consequence of continued ill health while in that State, takes great pleasure in notifying all his old patients and the public generally that he has taken a front suite of rooms, consisting of a Reception Parlor, Operating Room and Laboratory in that elegant new block recently erected by Messrs Treat & Smith, known as Kenduskeag Block, and upon the *same* floor as those of the Library Association, where he will resume practice on MONDAY, Sept. 4th, 1871.

Dr. Babcock will continue to make a specialty in the successful treatment of all diseases of the Mucous Membrane of the Mouth. Among which are, Inflamed, Ulcerated, Blood Weeping, Spongy or Soft and Flabby Gums, &c., &c. Teeth aching from any cause whatever, *immediately* relieved, and the tooth saved from a painful extraction to be of excellent service many years. Cavities in teeth filled with solid gold, all the way in size from those requiring a *solid gold tooth*, built upon the *root*, to that of those the most minute. Dead and discolored teeth, restored to their original color and beauty. Particular attention paid to the teeth of children, *no pain* shall be inflicted, and they may *rely* upon being treated with the utmost gentleness and kindness in every operation performed. Extraction performed *painlessly*. Artificial teeth made upon any base preferred—Gold, Silver, Vulcanite, Celuloid or "Continuous Gum Work," will be made whenever a patient desires to incur the expense. Charges shall be of the most moderate description.

Dr. Babcock will be pleased to see his old friends and patients upon MONDAY, Sept. 4th in his new Rooms in KENDUSKEAG BLOCK, Offices, Nos. 2 and 3.

EXTRACTS FROM THE CALIFORNIA PRESS.

Dentistry.—Those of our readers who are so unfortunate as to require the aid of a dentist, should know where to go for the best work. We have no hesitation in saying that the operations performed by Dr. J. F. Babcock in all branches, cannot be surpassed here or elsewhere. We have examined, recently, some operations by Dr. Babcock, in which the *root* was built upon with *solid gold*, which for beauty, strength and durability of workmanship cannot be excelled.—[San Joaquin Republican.

Fine Work.—We noticed to-day in the show case of Dr. Babcock several very fine specimens of Dentistry. The art of building up and replacing decayed teeth with gold has been brought to great perfection by this gentleman. The specimens mentioned evince very superior workmanship.—[Stockton Evening Herald.

Beautiful operations.—Paying a visit upon Saturday last to the Dental Rooms of Dr. Babcock, we were permitted to examine some very large and exceedingly difficult gold fillings in the mouth of a patient then being operated upon. They were truly beautiful, and reflect the greatest credit upon the skill and ability of the operator, Dr. Babcock. We earnestly recommend him as standing high in the ranks of his profession.—[Stockton Daily Independent.

It is well to get in all the facts. The Boston Transcript has heard of a party of ladies compelled to stand in the cars on the Eastern Railroad, lately, for some thirty miles or more; and that, too, not in the midst of but beyond the crowding to the camp-grounds.

The Boston Post having ventured to express the believe that "it is wrong to fly to one extreme to correct the other," the New York Commercial Advertiser hasten to reply that "every disobedient, pig-headed urchin in the land will endorse that sentiment."

A white man running for office in South Carolina sought to propitiate a colored constituent with whiskey. "Well, yes, sah," said the constituent, "I don't care ef I duz." "Sides in dese times a white candidate is jest as good as a colored voter, specially when the colored voter is dry.

A recent writer against the use of tobacco stated one very potent reason. He said that it was in evidence from some entirely reliable South Sea Islanders that the use of tobacco rendered human flesh unfit for food! Here is a fact which must make us pause, and touch the conscience even of a Greenfield tobacco speculator.

A well-known Representative from one of the New England States rose at a public dinner to make a speech, and said, "When I view this festive board, Mr. President, I can't help thinking of those beautiful lines of Longfellow, in which he says—er—ah—er—which say—er—er (tapping his forehead)—er—Mr. President I believe I've forgotton the lines I remembered." And he sat down.

It appears that the Grand Duke Alexis did not sail from Cronstadt on the day previously stated. He sailed on Sunday last, September 3. So we shall not have the light of the divine Ducal countenance till about the time of the autumnal equinox. Let us hope that he will not be welcomed to our shores by an old-fashioned "line gale," such as sends ships to join the Spanish Armada, or adds them to the "spoils of Trafalgar."

Prof. Hayden, U. S. Geologist, wrote to Secretary Delano from Emigrant Gulchy, Yellow Stone Valley, on August 28th, that the exploration of the Yellow Stone Basin was now completed. He says their labors had been entirely successful up to that time. No accident had befallen any member of the party. He thought no portion west had been more carefully surveyed than the Yellow Stone Basin. A careful topographical map, hundreds of sketches and photographic negatives and complete collections in National History and Botany had been secured. On his return, Prof. Hayden proposes exploring a belt of country from Fort Ellis to the Union Pacific Railroad, near Fort Bridges, where the party will be disbanded, about the first of October, a portion of them proceeding to Washington to prepare a report for publication.

The troubles in Broome County, Arkansas, are creating considerable excitement. A few days ago the Circuit Judge ordered out the militia, with the ostensible purpose of protecting his court, and kept them during his term. They are reported to have committed a number of depredations and attempted the assassination of one or two prominent Democrats in that county. The difficulty grew out of differences between Judge and Sheriff, both Republicans. The latter deposed the former, and a coroner was substituted in his place; the Sheriff refused to surrender his office, and the Governor has been sought to solve the difficulty. The Judge took his militia with him to hold the Marion Circuit Court.

The strike in Newcastle, England, has virtually been defeated. Half the usual number of operatives are now at work and a full complement will be obtained within a fortnight.

The Times describes the new passenger car of the Knox & Lincoln Railroad, just completed at the company's works in Bath, as a beauty. This is the first car of the kind that has been built by the company, and is highly creditable to the workmen.

The Voice says that a nice 3 years old colt owned by Marcia Shaw of Patten, while hitched in the stable threw himself on to a stancheon and thrust the end of it into his side so that his lungs were injured badly, and nearly laid bare. The wound was sown up, but it is thought it cannot survive.

The Kennebec Journal is informed that the item taken from the Belfast Journal, in relation to the Sherman Steel Works, is erroneous in nearly all its statements. A gentleman in Augusta, who owns several shares in the stock of the company, assures the Journal that "the works are not to be sold, and there is no prospect of a loss of fifty per cent. on the cost. The process has not proved to be worthless; on the contrary, under this invention, properly conducted, as good steel as can be made as at any manufactory of steel. The factory at Bucksport will soon be open for manufacturing purposes."

Dental Card.

I wish to say a word to the Gentlemen and Ladies of Bangor and vicinity. As parents you would do more for your children than for yourselves. A gentleman in Bangor, who is fifty years old, was in my office in April and said that he would give me one hundred dollars if I would save one tooth in his mouth without extracting it. But he was too late. If a man will thus value one tooth, what should he do for his children.

Now if you cannot save your own, you can save the teeth of your children. Almost every day some father or mother will come to the office with some dear child to have me extract some aching tooth. I examine the mouth and find that the painful tooth is *not a temporary* but a permanent one. The parent is surprised; you are wrong, she has never had but one tooth there, she will certainly have a permanent tooth when this one is out of the way.

A very large proportion of our patrons, have never known, or have forgotten, that in our first set we have but *twenty* teeth. And that all teeth that grow back of the twenty are permanent ones, thirty-two in all. I have extracted within the past year, seven *permanent* teeth for one little girl who was not eleven years old. Will your parents suffer your children to suffer for their life time by your neglect? If by neglect you have lost your natural teeth, a good editor will tell you where to go for the best artificial ones. Hundreds of people in Bangor and vicinity will endorse by their own experience all that he has said in his paper.

DR. J. K. LINCOLN.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a most skillful practitioner of the dental art. At least, he has made one old face in our house look young again, and has fitted, by art, a pair of jaws to masticate the food again which dame nature thought to deprive of this privilege a little too soon. We think the work and composition of the two full sets of teeth he has inserted cannot be exceled anywhere.—*Rural Intelligencer.*

My price now is $50 for a whole set of the best artificial teeth, $25 for a half set

WEDNESDAY, SEPTEMBER 13, 1871.

"THE LABOR REFORMERS."

The "labor reformers," says the Providence Journal are dissatisfied because the laborers are making too great wages on the new Post Office building in New York. The laborers themselves are of course content, or they would not remain when they are free to depart at pleasure, with the certainty of finding abundant employment elsewhere. The men who take off their coats and roll up their shirt sleeves, who wield the axe and the hammer, the trowel and the pick, are quite satisfied with the arrangements that they have made with those who employ them. The Government desires, the whole mercantile community desires, all who send or receive letters desire, that the post office should be completed as soon as practicable, and the superintendents, acting on the general wish, urge the work onward. The workmen can make good wages at eight hours a day, better at ten, and very much better at fifteen. Some of them prefer to work eight hours and to spend the others, not required for work, in visiting the park, or the theatre, or in reading good or bad books, or in playing billiards, or in any of the many other ways, some very praiseworthy and some very blameworthy, in which a free and independent American citizen may choose to pass the time. Others prefer to work longer hours, to "make hay while the sun shines," to "lay up something for a wet day," to send a boy to college, or to buy a farm, or a comfortable house in the suburbs. And each and all have the equal right to follow his own judgment, in the matter, to work according to his health and his strength, and according to his own views of what profits him or what pleases him.—And it is nobody's business but his own. The American workman is not a surf; he is not under the guardianship of self-constituted committees, who go around getting up conventions, making foolish speeches, and drinking good champagne.

If all the men who never did a fair day's work in all their useless lives would leave the labor question to be settled by those whose industry and skill are building up the wealth and opening the resources of the country, by the men whose honest toil is giving them the means of constantly improving their own condition and opening to their children paths of usefulness and honor, the whole matter would soon be settled to the mutual satisfaction of labor and capital. It is the artificial disturbance to which three-quarters of the trouble is to be traced. It is the bad ambition of men who wish to live without work themselves and to raise themselves to power on the shoulders of labor, that causes the discontent, the antagonism between men whose interests are identical, and the loss of so much time that the interests of the community and still more, the interests of those who lose its demand should be passed in industrious callings.

As there is no royal road to learning, so there is no other road to independence, to competency, than the road of steady and faithful labor; nor can any system be devised which shall give to the man who labors eight hours a day the same reward as to the man who labors twelve hours a day; and by no way in a free country, by no way except the exercise of outrageous tyranny, can a man who is able and willing to work ten hours a day or fifteen hours a day—as we have worked for many a day—be kept from the exercise of his own right in the matter.

PENNSYLVANIA.

We copy the following remarks from the Boston Traveller:

Pennsylvania is the State upon which the Democrats purpose concentrating their energies, in the hope of getting her vote in 1872. Sure of New York's vote, they think victory would be certain could they "bag" that of Pennsylvania. But it does not follow that to array the first State and the second under the same banner would insure victory at a Presidential election. Had both Pennsylvania and New York voted against General Harrison in 1840-41, he would have been chosen President by 184 electoral votes against 130. General Pierce would have been chosen President in 1852-53, against both New York and Pennsylvania, by 192 electoral votes to 104.—Mr Buchanan would have been all but chosen President in 1856-57, even had Pennsylvania voted against his election—as New York did—as the electoral vote for him would have been 147, against 140 for Fremont, (supposing Pennsylvania to have gone for the Republican candidate, and 8 for Fillmore. There would have been just one majority against Buchanan in the electoral college. Pennsylvania is a powerful State, and therefore a very important State at a Presidential election; but she is not quite the Warwick of the Union, that is, she is not a President-maker on most occasions of making a President. If there is a strong feeling against a candidate, she is likely to share it and her vote is lost to him, for the same reason that other votes are lost to him. What is done there is the effect of opinion that bears general sway, and she is powerless to make or to mar the said candidate's fortunes. At the same time, it is a matter of no slight moment that such a State is likely to vote this way or that way at a Presidential election, and the party that feels sure of her support has certain undeniable advantages; and the Republicans should so act as to get those advantages on their side. It is in their power to have them. Let them put down all attempts to get up factions about the spoils, and Pennsylvania will be, as sure a card for them as Massachusetts, almost. We presume that if the Democrats purpose to make their great fight in Pennsylvania, as they say, General Hancock will be their standard bearer in 1872. To satisfy Pennsylvania they must take one of her own men, and General Hancock is the biggest of all the Pennsylvanian Democratic leaders. The Southern Democracy appear to be joining the "Hancockracy."

NOT SO. The Boston Advertiser erroneously states that "Castine voted on Thursday last the sum of $250,000 for the projected shore-line railroad along the eastern coast of the State." The statement arose from the fact that at the meeting of the citizens at which a committee was raised to represent the interest of Castine at the railroad meeting to be held at Ellsworth to-morrow, the Committee were told to represent that in case the railroad should be built to Castine instead of going to Bangor, that two hundred and fifty thousand dollars could undoubtedly be raised in that town towards building the road, which is another and quite a different thing from the town *voting* that amount of money.

A QUESTION OF IMPORTANCE TO SHIP BUILDERS. The Treasury Department is engaged in the examination of an important question affecting the interests of ship owners and ship builders. The question is, whether vessels can be built in part in this country and then carried abroad and finished, without becoming undocumented. It seems that owners of sailing vessels, desiring to change the same into steamers, find it much cheaper to have this work done abroad, owing to the high price of labor here, and for some causes the contractors who build the hulls of ships here desire to fit them up elsewhere. Those officials who have given this matter some attention do not think our navigation laws, as they at present stand, will bear that strict construction which would undocument a vessel for taking this course.—The whole matter has, however, been referred to Secretary Boutwell, and his decision is earnestly looked for.

In Limestone County, Ala., on Sunday, L. L. Weir an old and respected citizen, was taken from his Home by five masked men and is supposed to have been murdered. A number of citizens started in pursuit but have not yet been heard from.

THE ELECTION.

The returns received since our last issue show continued Republican gains, increasing the Republican majority in 218 towns 2,421. These towns in 1870 gave Perham 37,804; Roberts, 30,761. In 1871 Perham had 41,835, and Kimball 31,891, making a Republican majority of 9,444. The Republican majority cannot fall much below 12,000, which is better than we have reason to expect, when we remember that the Republicans had no canvass and that the enemy were active in getting out voters, and sending dark-lantern circulars through the country urging the "faithful" to vigilance in the cause. We give the vote this morning and shall publish no more returns until Monday morning.

THE TAMMANY FRAUDS.

A New York dispatch of Tuesday says there is no further development in regard to the stealing of the official vouchers of the Controller's Department. The Tribune says it is asserted and generally believed that Cornelius Connolly on Sunday robbed or caused to be robbed the official archives of his department, to conceal the evidence of frauds, which he with others have been committing during the last few years. There was great feeling in Wall street in the afternoon, and all securities in which the ring leaders were especially interested felt the heavy weight of public suspicion. If this suspicion should become a certainty it would produce a most serious state of feeling. The impression has been growing for some time that the law does not afford sufficient guaranties against the corruptions and audacity of these people. It is an impression we deplore, and shall not cease to combat. But if anything could give the color of justice to such impulse it would be a crime like that now charged against the Controller.

The World says that every honest man will endorse and applaud the firmness and vigor of Mayor Hall in demanding the immediate resignation of Connolly. If he is so mad or so blind as to disregard the firm demand of the Mayor, he will find before night that scorching and resistless public indignation will make the city too hot to hold him. It may be his misfortune and not his fault that this alleged robbery of his department occurred just at this critical juncture, but it has so suspicious and damaging a look that if he is an upright, innocent man, with a reasonable sense of honor, he will be too glad to afford the Mayor an opportunity to appoint a successor to investigate the affairs of his department. Every hour that he delays sending his resignation will kindle the incensed public to a more burning intensity of feeling. We run no risk in predicting that before the sun sets to-night, he will have no friend in the city to stand by him if he fails to comply with the firm and reasonable demand of the Mayor.

MAYOR HALL'S LETTER TO CONNOLLY.

The following letter from Mayor Hall to Controller Connolly was published Tuesday morning:—

Mayor's Office, Monday p. m., Sept. 11.

My Dear Sir,—I have just been informed by the Superintendent of Police that last night the offices of Finance Department were secretly invaded, and that as a consequence thereof valuable vouchers, evidences of payments and cancelled warrants, together representing a large amount of discharged city liabilities, are alleged to have disappeared.—The Superintendent and the Mayor immediately had a full conversation regarding the means of investigating the untoward circumstances of the alleged burglary, so as to punish the guilty, procure the restitution of such papers as may have been taken, and protect the interests of the city. Our constituents will have the right to hold you responsible and in a measure withhold from the Finance Department the desirable public confidence. It is impossible not to perceive that the city credit will suffer, and in a very critical period of the municipal government. With great personal reluctance I officially reach the conclusion that the exigency demands your retirement from the head of the Finance Department in order that I may place there another gentleman, who will be enabled to thoroughly investigate its affairs and restore public confidence. I cannot suspend any head of the department, not even pending the investigation. I can only prefer the charges to the Judges of the Court of Common Pleas, who alone can remove after a considerable time for trial. I am compelled to throw myself, therefore, as Mayor, in this unexpected emergency, upon your magnanimity, and ask under the circumstances, for your resignation. (Signed) Very truly yours,

A. OAKEY HALL.

A Washington correspondent made inquiries at the Treasury Department, Monday, in regard to the report that Mrs. Connolly had recently transferred a large amount of bonds, and reports the following by authority:

Washington, Sept. 11.

The denial in the New York journals this morning, that Mrs. R. B. Connolly had recently transferred to her son-in-law, Joel Fithian, $500,000 in registered bonds of the United States, is not correct. Mrs. Connolly on the 19th of last month, according to the account of the Treasury Department, transferred to said Fithian $200,000 in currency 6's and $300,000 in the new five per cents. or consolidated 67's.

The London journals of Tuesday discuss the success of Chinese labor in America in its relation to recent strikes in England. The newspapers also comment savagely upon the many disasters which have recently befallen British ships of war.

A Salt Lake dispatch says Deputy United States Marshal Paul, supported by a squad of cavalry from Camp Douglass, made a descent Monday night on the house of a man named Baum, near Provo, and attempted to arrest him. Baum made an effort to escape, but was shot, and his wound is supposed to be mortal. He was indicted in the U. S. Court some months ago for murder.

The Third District Court of Utah commenced its fall session at Salt Lake City on the 12th inst.

Rare Chance.

A Valuable House for Sale,

The owner, having removed from the city, wishes to sell this house, situated on West Broadway. It is a large new, two-story house with a French roof, and is furnished throughout in the best manner and with all the modern improvements. It is situated on one of the pleasantest streets in the city, and all of the surroundings are as good as could be found anywhere. The lot contains about seven eighths of an acre (162 feet on the street and about 350 feet back) and is all under a high state of cultivation. The soil is very nice and light. There are nearly all kinds of fruit trees and shrubbery on the lot, and a nice flower garden beside the house. It is seldom that such a chance is offered to persons wishing to buy a nice house.
It must be sold immediately. For particulars inquire at No. 4, Broad Street, Bangor.

WALKER'S

IMPROVED

PORTABLE RANGE.

THE NEW RANGE excels anything of the kind ever offered for sale. It requires much less space than ordinary cooking stoves, and is more economical. It will heat as much water as a range set in masonry.

The HOT CLOSET retains the heat usually radiated from the bottom, which is, during the summer months WORSE THAN WASTED, thereby not only SAVING FUEL, but making the KITCHEN MORE COMFORTABLE, besides furnishing an admirable place for warming and keeping food warm, warming plates, &c. The door can be removed during cold weather to allow the heat to escape into the kitchen.

Coals are separated from the ashes in the SIFTING CHAMBER.

THE FOLDING SHELF, together with other improvements referred to, make it all we claim for it, viz: THE MOST DESIRABLE COOKING APPARATUS TO BE FOUND ANYWHERE.

DOLLAR REWARD SOAP

Washes without rubbing; Removes *Pitch, Tar, Paint, Grease, Sweat and Leather Stains, &c.*; Washes with Hot or Cold, Hard, Soft, or Salt Water, Saves Labor, Time, Fuel, Clothes, and Money. Clothes washed will not wear twice as long as if washed with common soap. One pound of it will wash from ten to fifteen dozen pieces of ordinary family washing. It washes the *finest lace* without injury, and renders all articles as clear and bright as new.

THE DOLLAR REWARD SOAP.

Try it in the Bathroom; it leaves the skin cool, smooth and soft. Use it to cleanse your Marble Ornaments, Mantles, Door-steps, &c., and Brick Walks and Alleys. Use it with scouring-brick in cleansing iron or steel; it saves half the labor, and gives a better appearance. It makes Tin Ware shine like new, and has no equal in cleansing glass or china. Dissolved in boiling water, it makes the best and cheapest Soft Soap in the world.

SPOKEN

Aug 1 lat 23 49 N lon 38 W brig Fidelia Young, from Buenos Ayres for Liverpool.

Hon Cornelius Walsh the Republican candidate for Governor in New Jersey, though not widely known outside his native State, is said to be deservedly popular at home. He is particularly noted for his many charities, giving liberally always of his means to religious and benevolent enterprises. During the war he was President of the Sanitary Commission of New Jersey, and is remembered with gratitude by thousands of soldiers.

—A delegation of Bucksport gentlemen were here yesterday in the interest of a direct line from here to Bucksport.

—Mr ... S Griffin of Levant, sold six spring lambs weighing, when dressed, three hundred pounds, the heaviest one, fifty nine pounds.

Sale of Real Estate. We understand that Sidney Thaxter Esq., has sold his elegant residence on Grove street to B O Foster Esq of Iowa.

Valuable Animal Sold. We learn that Col. Gideon Mayo of Orono, sold his young mare Fannie to a Mr. Huntington of Boston, for one thousand dollars.

Camp Meeting at Lincoln. The Camp Meeting at Lincoln, held last week, was so productive of good results that it is proposed to continue to hold them at the same place each succeeding year.

—At a meeting of the Merchants Marine Insurance Company held Monday evening, Hon John B Foster resigned the office of President, and James B Fiske, Esq., was chosen to fill the vacancy.

—Our correspondent "Nopen" writes that about two miles of iron will fill the space on the E & N A Railway. The iron is all on the ground, having been transported across the upper Mattawamkeag Bridge on the first train that passed over.

—A hearing upon the assessments for sewers on Main, Middle, First, Elm, Everett, Union and C... streets, was had last evening at the Aldermen's room, and the further hearing in the matter will be had this (Wednesday) evening at 7½ o'clock, at the same place.

Shooting at the Basin Mills. We learn that a young man named Chas Foster was shot through the arm with a bullet from a revolver in the hand of Peter Marco while at a dance at the Basin Mills last night. Other shots were fired, but only his took effect.

—The sale of tickets to the approaching Festival of the Penobscot Musical Association, will commence to morrow morning at 8 o'clock, at the Messrs Duren's Bookstore. It will be seen by the programme, what ample and attractive arrangements are made for the sessions. Two dollars will secure admission to the twelve sessions, including matinees and secured seats for the three concerts.

Bangor Horticultural Society. The annual exhibition of the Bangor Horticultural Society will commence at City Hall this afternoon and continue until Friday evening when a general disposition of the articles on exhibition will take place. The display of fruits, flowers and vegetables will be quite large, probably fully equal to any previous exhibition. No doubt our citizens generally will avail themselves of the opportunity to see the gathered products of our excellent gardens.

—At the election in Orono Mr. John H ...man deposited his *fiftieth* ballot having voted *fifty consecutive years without mutilating his ticket!*

Exeter, Sept 11th, 1871.

To the Editor of the Whig and Courier

As a candidate for Representative the Democrats fought me desperately, but like men, yet I licked them by 80 majority in the District and made the following verse of rhyme amid the storm of battle.

With bleaching locks and fading sight,
This sage advice I give to you
Use brains enough to shun a fight
Or pluck enough to fight it through.

Yours, David Barker.

Railroad Meeting at Ellsworth. The Railroad Convention to be holden at Ellsworth to-morrow, should be largely attended by the business men of Bangor, as the question of railroad communication East is one in which we have a vital interest. Bangor is the natural outlet for the products of the vast territory lying to the North and East of us, and will be the grand terminus for all roads extending in these directions if we display our usual business sagacity in extending necessary aid to complete their construction.

Awake of the importance of this subject, our citizens held a meeting last week and selected a large number of our prominent business men to represent them at the approaching Convention, and it is to be hoped that each person thus selected will feel it to be his duty to respond and let our Eastern friends see that we are in earnest in the matter. They are determined to have a railroad, and a very large majority of them undoubtedly prefer to have its terminus Here. Shall we look on quietly and see the trade of this great section of country diverted into other channels, when a very little effort will open up the country to our merchants, and enable them to compete successfully with larger markets for the growing trade?

Bangor cannot afford to dally in this matter, and the first and most important move then is to send an able representation to Ellsworth. Let our Eastern friends hear from us.

To the Editor of the Whig & Courier

Permit me to call the attention of your readers to the Opera of Moses in Egypt, composed by the celebrated Rossini. It is to be performed by the Penobscot Musical Association which holds its 24th annual session, commencing Monday evening Sept. 25th. It is very different from anything of this class of music, that we have had in Bangor. This was first composed and introduced to the Italian musical public in 1818. It is more difficult than anything we have had, but far more pleasing and popular. The choral portion is more important than in any of the Oratorios that have been performed. The chorus of the plague of darkness in the first act is said to have been one of the most impressive pieces when the work was first produced, ever performed. And in the passage of the Red Sea, where the same melody is heard first in the minor as a plaintiff supplication, afterwards in the major as a joyous thanksgiving, we are told the excitement arose to the highest pitch. The music is thoroughly simple, the effect thoroughly dramatic. A great musical critic of Naples, speaking of the effect of it in Italy says "The people went to be pleased and came away delighted. Among other things that can be said in praise of the great composer, I can cite to you more than forty attacks of nervous fever, or violent convulsions of the part of young women fond to excess of music, which have no other origin than the prayer of the Hebrews in the third act with its superb change of key."

We have no fear that nervous convulsions or fevers will be placed to its account as the result of its performance in Bangor. We have neither the Italian love of music, nor nerves, and possibly our basses, magnificent as they are, will fall below Porto and Benedetti under whose singing these effects were produced. But with this Oratorio, performed by such artists as Mrs. H M Smith, Mrs Crowell, Mr Wm. J and John F Winch, Mr F C Packard and Mr F O Sprague, together with the superb Mendelssohn Club, under the direction of Prof. Southard, with a chorus of our own singers, taking an active part in the drama, our people cannot fail to be exceedingly pleased.

It is conceived in Rossini's grandest and broadest dramatic style, and there is such harmony and melody in the accompaniment, so much simplicity mingled with so much grandeur, that it cannot fail to interest in the highest degree.

AFFRAY ON THE E & N A RAILWAY

DRUNKEN MEN MAKE A DISTURBANCE—ONE OF THEM SHOT.

Quite a disturbance occurred on the evening train up on the E & N. A Railway Monday evening, which came near to resulting fatally to one of the roughs engaged in the affray.

It seems that three men, John Perry, —— Derushe, and —— McMorrow of Orono, had been down to the city on a little bit of a time, and had unfortunately "hoisted in" too much tanglefoot, and were not just in the situation to please the conductor of a train. They started a muss before they left the Depot, but finally quieted a little, but only momentarily. Before the train was two miles from the station and while the conductor was taking up the tickets upon the forward end of the train and Mr Purinton was coming forward to meet him, the row commenced in the car next to the smoking car. The three drunken ruffians commenced hitting right and left causing a general stampede among the women and children. An effort was made to quiet them which was partially successful, when it broke out again hotter than before. They were pushing forward and reached a seat occupied by Mr. Wm. B Hayford of this city, when they commenced a general punching and pushing. Mr Hayford went forward to notify Mr Osborne who immediately came to the rescue of his passengers. Before Mr Osborne and Mr Purinton succeeded in stopping the row, Mr. Hayford returned to the car. Seeing the men pushing toward him in such a threatening manner, Mr Hayford supposed they were again about to attack him and fired his revolver at them, the ball striking Perry on the side of his cheek, but fortunately inflicting but a slight wound. He immediately fell back exclaiming, "I am shot; I am shot." He was caught by Mr Purinton who soon convinced him that he was uninjured. The united efforts of Mr. Osborne and Mr Purinton soon restored quiet to the car, but not until the passengers had experienced a very severe fright, and several of them had been hit by the roughs.

The outrage was unprovoked and most dastardly, and the Company will fail to discharge their duty to the public and their passengers, if they neglect to use all the means in their power to bring the rowdies to severe punishment.

We believe that Perry and Derushe have already been arrested and will undoubtedly be held for trial. McMorrow will be secured to-day.

As at present advised, we discover in this another warning against the policy of carrying fire arms upon the person. It is a wonder that none of the passengers were injured.

POLITICAL AND PERSONAL

The Portuguese ministry has resigned, and efforts are making to form a new ministry.

Napoleon arrived at Torquay Sunday morning, and was received with much enthusiasm by the people.

John Roberts, one of the proprietors of the Nashville Banner, died Monday afternoon after a brief illness.

A re-count has been demanded in San Francisco, by several candidates for city offices on both sides, and ordered by the Supervisors.

The discussion in the Brazilian legislature on the emancipation bill is terminated, but the measure will not probably become a law at the present session.

J. Walter Walsh, formerly of New Orleans, and for many years publisher of a paper in San Francisco, died in the alms house in the latter city Saturday night.

Col Wickzer not having signified his acceptance of the office of U S Attorney for Utah, Chief Justice McKean has appointed R B Baskin U. S. Attorney ad interim.

Emerson Etheridge, of Tennessee, has come to the conclusion that the Democratic party ought to keep pace with the times, and so he is willing to accept the amendments as fixed and unalterable.

South Carolina papers report that some body in Albany is sending into that State anonymous circulars requesting signatures to an enclosed declaration of principles of the "People's Anti Monopoly party."

Mr Roosevelt's scorching speech at the great meeting, on what the Hon Tom Fields calls the "purity of the ballot-box" under the high priesthood of Tammany, is extensively republished by the Republican journals.

The Philadelphia Press appeals to the ambition of the Democratic Judges in New York by remarking "The man who endorses Hoffman and the Tammany ring leans in the race for the Democratic Presidential nomination."

General Ewing, it is said, has written a letter to a member of the Ohio Democratic Executive Committee, positively refusing to allow himself to be placed at the head of the State ticket, even in the event of McCook's withdrawal.

The reported proposition of Lieutenant Governor Dunn, of Louisiana, to form an alliance with the Democrats, for the purpose of ousting Governor Warmouth, is making great stir among the New Orleans politicians, as might be expected.

Butler looks for his principal support to the manufacturing cities and towns. Hence it is not strange that some of the prominent Republicans of Lawrence held a meeting Wednesday evening, to devise measures to prevent the choice of Butler delegates to the State Convention from that city.

"Warrington," the Springfield Republican's Boston correspondent, writes as follows of Dr Loring's prospects: "As this is Dr Loring's week at Lowell, let me say a word about him. It looked a week ago as if the Doctor was flatting out, but I am not so sure of this. His friends assure me that he is steadily gaining. His strong point seems to be that he is not engaged in any quarrels, that he behaves like a gentleman, and that all sorts of Republicans meet him on civil, if not friendly terms."

Hon. Carl Schurz's letter accepting the invitation to speak in Nashville, Tenn., says—"While the complimentary terms in which the invitation is expressed go far beyond my merits, you are certainly right in ascribing to me an earnest desire to promote the 'restoration of universal peace, harmony, friendship, and true brotherhood,' and I shall gladly avail myself of the opportunity you have offered me to contribute my share, however little, toward the furtherance of that great end."

The political campaign in New Jersey promises to be one of unprecedented activity. The Republicans have entered upon the campaign with an enthusiasm and unanimity which augur well for their success. General Kilpatrick, defeated in the contest for the nomination for Governor, warmly espouses the cause of his successful rival, and other leading Republican speakers are preparing to do good service at the hustings. The Democratic gubernatorial nomination will be made next week, after which the excitement will be at fever heat until the day of election.

Deputy U. S. Marshal Jackson and a party of soldiers made a raid on a Ku Klux camp in Russell County, Kentucky, on the night of the 7th inst. A soldier named Crusoe was killed and Sergeant Strader wounded. A man named Coffrey was arrested as the murderer of Crusoe and another named Jones as a member of the same Ku Klux gang. Both were brought to Louisville Monday and placed in jail.

Serious charges of cruelty have been made against the management of the Susquehanna Valley Home Charitable Institution for Children at Binghampton, N Y, and committees are now examining the affairs of the Home. A warrant has been issued for the arrest of the Superintendent, Rev Mr Van Epps, who is now in Boston. The principal charges are made by Mrs Mary Buckman, formerly matron of the Institution.

The Saratoga Races.—Six boats started in the four mile single-scull race Monday afternoon, as follows—Sadler, Ellis Ward, Bagnal, Kelley, Biglin and Bright. Gilbert Ward was sick and could not start. He was not well in the four-oared race. At the start Sadler and Ward led. At the end of the first mile up Sadler and Ward ran first and second, and turned the stake-boat together, Bagnall third, Kelley fourth, and Biglin fifth. On the down course, at the end of the third mile, Sadler led, Bagnall second, Kelley third, Biglin fourth, and Ward fifth. Sadler came in at the finish six lengths ahead, Kelley second, ten lengths ahead of Biglin, who was third, and Ward close behind, numbering fourth, Bagnall fifth, and Bright sixth.

In regard to the third place in the four-oared race, a compromise was effected by Morrissey, who paid the Biglin and Taylor-Winship crews each $75, the full amount of the third money.

The Tammany Muddle. A New York dispatch says the burglary in the Comptroller's office is still creating intense excitement in the new Court House and City Hall, but up to afternoon the detectives failed to discover the perpetrators. The Lyons Co Auditor was engaged this forenoon in examining the books in the County Bureau with a view to prepare a list of the abstracted vouchers. At one o'clock the Comptroller was closeted with his Deputy, Storrs, and he declined to make any statement to reporters. He is said to be writing a reply to Mayor Hall. The rumor that he has resigned is pronounced incorrect in his office.

The Cause and Cure of Consumption.

The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood and thence into the solids of the body. Persons with digestion thus impaired having the slightest predisposition to pulmonary disease or if they take cold will be very liable to have Consumption of the Lungs in some of its forms and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime which is clogging these organs so that they cannot perform their functions and then rouse up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and arouse it up to a new and healthy action by which natural and healthy bile is secreted.

The stomach bowels and liver are thus cleansed by the use of Schenck's Mandrake Pills but there remains in the stomach an excess of acid the organ is torpid and the appetite is poor. In the bowels the lacteals are weak and requiring strength and support. It is in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid making the stomach sweet and fresh. It will give permanent tone to this important organ and create a good hearty appetite and prepare the system for the first process of a good digestion and ultimately make good healthy living blood. After this preparatory treatment what remains to cure most cases of consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood and is readily absorbed into the circulation and thence distributed to the diseased lungs. There it ripens all morbid matters whether in the form of abscesses or tubercles and then assists Nature to expel all the diseased matter in the form of free expectoration when once it ripens. It is then by the great healing and purifying properties of Schenck's Pulmonic Syrup that all ulcers and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion so that the body will grow in flesh and get strong. If a person has diseased lungs a cavity or abscess there, the cavity cannot heal the matter cannot ripen so long as the system is below par. What is necessary to cure is a new order of things a good appetite a good nutrition the body to grow in flesh and get fat then Nature is helped the cavities will heal the matter will ripen and to throw off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption and if a person is very bad if the lungs are not entirely destroyed or even if one lung is entirely gone if there is enough vitality left in the other to heal up there is hope.

I have seen many persons cured with only one sound lung live and enjoy life to a good old age. This is what Schenck's medicines will do to cure Consumption. They will clean out the stomach sweeten and strengthen it, get up a good digestion, and give nature the assistance she needs to clear the system of all the disease that is in the lungs whatever the form may be.

It is important that while using Schenck's medicines care should be exercised not to take cold keep in-doors in cool and damp weather, avoid night air and take out-door exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold while using my medicines I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured and it is precisely the same in regard to consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed consumptives' lungs are a mass of sores which the least change of atmosphere will inflame. The grand secret of my success with my medicines consists in my ability to subdue inflammation instead of provoking it as many of the faculty do. An inflamed lung cannot with safety to the patient be exposed to the biting blasts of winter or the chilling winds of spring or autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure under almost any circumstances is an impossibility.

The person should be kept on a wholesome and nutricious diet and all the medicines continued until the body has restored to it the natural quantity of flesh and strength.

I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these many years with one lung mostly gone. I have cured thousands since and very many have been cured by this treatment whom I have never seen.

About the first of October I expect to take possession of my new building at the north east corner of Sixth and Arch streets where I shall be pleased to give advice to all who may require it.

Full directions accompany all my remedies so that a person in any part of the world can be readily cured by a strict observance of the same.

BONDS

—OF THE—

EUROPEAN AND NORTH AMERICAN RAILWAY CO.

THE E & N A. RAILWAY is completed from Bangor Maine, to St John, New Brunswick a distance of 202 miles,—with the exception of 58 miles between Winn, Me, and the boundary line of the State at Vanceboro. On this portion the track is now being laid, both from Winn *eastward* and from Vanceboro' *westward*, and the work will be completed and trains running from Bangor to St John in September next.

This road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia). The population of the maritime Provinces is about ONE MILLION, and all the land travel, freight, mails, &c., between them and the United States, will pass over this Trunk line which is WITHOUT COMPETITION. Although not yet completed the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing.

The net earnings from Local Business alone, on the 56 miles completed in Maine already exceed the interest on two and one quarter millions of dollars, and will be largely increased after Sept next by the business to and from the Provinces.

To complete this road, and to equip it as fully as its present large business and the immediate increase consequent upon its completion requires,—the Company has issued its Bonds to the amount of Two Millions of Dollars secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN TO VANCEBORO' (besides a *Second* Mortgage on the entire road and equipments from Bangor to Winn, 56 miles. This portion cost some $2,300 000, and the only lien thereon is a mortgage to the city of Bangor for $1 000 000 —and, in addition thereto, by a FIRST AND ONLY MORTGAGE on

800,000 Acres of Land!

Said lands being the same granted by the State of Maine to aid the construction of this road. They are situated along the Penobscot and St John rivers and are heavily timbered and valuable. Large tracts, especially in the fertile Aroostook Valley, (the finest agricultural district in the State,) are valuable for farming lands as well as for their timber. This immense grant of lands equals about

14,000 Acres to each Mile

of Railroad with which they are mortgaged. They cover 1250 square miles (nearly as large as the State of Rhode Island which is 1306 square miles) and are of great value.

Thus, besides the mortgage of the Railway, its equipments, &c, which alone is ample security for the Bonds there are timber and farm lands to the amount of

400 ACRES TO EACH BOND

also pledged to ensure the payment thereof.

The Bonds are for $1000 each, due March 1, 1889, or interest at

Six Per Cent, Per Annum,

PRINCIPAL AND INTEREST PAYABLE IN

GOLD COIN.

Free from U. S. Taxation.

Coupons payable March 1 and September 1, in New York. Bonds registered if desired. Coupons made payable (£6 each) in London, England, if preferred.

SINKING FUND—All proceeds of sales of land, as well as of timber and other products therefrom, are, by the Trustees to be invested in these Bonds if they can be bought at par or less otherwise in United States, State or Municipal Securities. And on July 1, 1879, and annually thereafter until these Bonds become due or are all paid, the E. & N A Railway Co is bound to pay to the Trustees a sum of money equal to one per cent of the amount of Bonds outstanding. Such amounts, and all interest received on securities, belonging to the SINKING FUND are to be invested as above stated, and these accumulations are solely for the purpose of additionally providing for the redemption of these Bonds. The Sinking Fund constitutes a third great element of security and strength, and adds to the safety of these Bonds.

The Trustees are Hon HANNIBAL HAMLIN of Bangor Me and J EDGAR THOMSON, Esq., of Philadelphia, Pa.

The Trustees are authorized to receive the Bonds at Par and Accrued Interest in payment for any of the lands at their appraised value.

These very desirable securities for sale at

90 AND ACCRUED INTEREST IN CURRENCY

U S Bonds and all marketable securities received at highest market price in exchange for these Bonds, and can be sent by Express and these returned by Express free of expense to the purchaser.

Pamphlets giving further particulars concerning the connections and business, with Maps, showing the location and lands of this road, sent free on application to

Principal Agent for the Company for the Sale of Bonds,

On completion (in 1872) of 60 miles of Railroad now building, between St. John, N. B. and Halifax, N. S. there will be an unbroken line of Railway from Halifax to all the chief cities of the United States, and as two or three days of ocean travel can be avoided, and about 36 hours' time saved, from New York, in going to or coming from Europe, by rail to or from Halifax,—a large business in passengers, mails and freight will thereby be added to the business over the E. & N. A. Railway.

A Safe & Profitable INVESTMENT.

First Mortgage Bonds,

To a limited amount upon a railroad which is well located for business, and which has been already largely constructed with the funds of its Stockholders cannot be otherwise than safe. This security is increased if the Constructing Company is composed of men of high character, and of ample means for successfully carrying through any work that they undertake.

THE

NEW ORLEANS MOBILE & TEXAS RAILROAD COMPANY

Offer for sale a bond which combines these advantages to an unusual degree. The route lies between Mobile, Alabama, and Houston, Texas—passing through New Orleans. The New York of the South. Of the whole line of 475 miles, about two thirds are already built and the Stockholders have expended early TEN MILLION DOLLARS in the work. The bonds now offered are secured by a mortgage upon all that part of the line west of New Orleans which has an enormous traffic assured to it from the start this being the only rail connection by which the cotton corn cattle and other productions of Texas can reach New Orleans.

So important is this road considered to Louisiana that the State has made very liberal grants in aid of the enterprise by direct donations, by endorsement of second mortgage bonds and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The First Mortgage

Eight Per cent. Bonds

Now offered, are limited in amount to $12,500 per mile and are for $1 000 or £200 each, interest payable January and July, at the rate of 8 per cent. Currency or 7 per cent. Gold at the option of the holder. Bonds registered if desired.

Among the leading Stockholders of the Company are Hon. ED Morgan, Ex Governor and Ex U S Senator, Hon. John A Griswold, Ex Lieutenant Governor Troy N Y. Hon. Oakes Ames M C, Massachusetts, Messrs Morton Bliss & Co., L Von Hoffman & Co, J & W Seligman & Co, Harrison Durkee and others, of New York. Benjamin E Bates President Bank of Commerce, Franklin Havens President Merchants Bank, Boston, and others also well known.

The above statement of facts proves the SAFETY of these Bonds. Their PROFIT is equally manifest upon examination. They are sold for the present at 90 and accrued interest from July 1st. At this price they afford a certain income for forty five years of nearly nine per cent upon their cost. One thousand dollars invested in these eight per cent bonds will give the purchaser more *than seventy seven per cent* greater annual interest than the same sum invested in the new Government five Per Cents while holders of Government Sixes will find a decided profit in selling them at present high prices and re investing in the New Orleans Mobile and Texas Bonds.

Subscriptions will be received in Bangor by

P. M. BLAKE, Banker,

and in Bucksport by

EDWARD SWAZEY,

At Bucksport National Bank.

THE LOST SHEEP

The flowery city and all that safely lay
In the shelter of the hill
And one was out on the hills away
Far off from gate of gold
Away from home alone and bare
Away from light and love
In the Shepherd made answer "This of mine
Has wandered away from me
And although the road be rough and steep
I go to find my sheep

All the fold answered ever knew
His voice ever thus was received
No fleece lack the night that the Lord passed through
Ere He found His sheep that was lost
Out in the desert He heard it cry
Sick and helpless and ready to die

TOO MUCH ZEAL

"I can never suppose you take your broth for a frank

Oh how kind How very, very kind Oh, Willie how go I you are Come here Sir dear Is and it is kissed Do you know that it has been a many mind for days to ask you if he might come for fellow only I was afraid Afraid of me Susey?"

Yes—Well I was really afraid of you but—you see—you and he had not got on well together before marriage,"

Whose fault was that?"

Mine I suppose' said the young w ch And we were so poor, dear and he so proud He didn't like to have a thought that he was trying to marry me because you were rich

He might have spoken out and told me so, instead of sneering at me before you because I don't know Greek and that, as he does and bring to lower me in your eyes If he had but spoken like a man I should have thought him brave and honest and I should not have broken many a time

Well that's all over now, and you must admit that he has been more civil lately

Civil indeed, my dear Susey, one's wife's only brother ought to be a little more civil, especially when he knows or ought to know, that I've been a foreign exile, banished for half a dozen years to a climate he cannot go about his work in any way, I beg him to remember Now he does not

Oh, pre-occupied—his simony

Simony what the fiend's Bishop with—sister or married daughters, or wife's relations, who shall not bind him in the meshes of his "Ha! the very man Come and speak with fifteen hundred a year

Oh the dear! Well—

Well I am not Nor is Frank a mercenary man He looks like a gentleman, but who are the untravelled ones that ought ever strange and Oriental and we have been Ca There—at that hotel which a special providence watchful over poor travellers ordered to be burnt down the other day—we fell in with an old friend of Willie Templar's—I Mussom, on of those restless fellows who are necessarily crying down travel, the nuisances and never remaining more than a month or, two at home To use the vulgar expression, the East "was the great est swindle out, and yet he had made himself so much at home at Beyrout Damascus, Constantinople, and on the Nile, as he ever had been in Hall Mall He spoke Arabic and Turkish like a native, and knew the Holy Land better than a German courier knows the Rhine Such a guide, philosopher and friend was invaluable In the time he was enlisted, attested, and shipped on board the Susan, which was the plain Dutch

From the time we first met Jaffa, until our return to Beyrout, Frank had been most agreeable Nothing could persuade him to visit scenes of interest in our company more than once, and at the same times We had to wait for him here, push on and overtake him there Dear loving Susey explained that we were only slightly nervous and he somewhat more We were horribly afraid of disagreeing with every one and disarranging every plan had entered into sublime

By the time we returned to the coast the quails had begun to arrive Beyrout is not a pleasant residence and as the Susan required some repairs she proceeded to sea, and was considered living on board out of the question, an expedition was planned to a place about twenty miles off in the sea where the best fishing could be had We were to "rough it" in old half-ruined fort, with the aid of our own tents I camp bedding sparkling Moselle and other wines potted meats pies of all sorts from Morton, and Templar's French cook from the Susan Accidents will happen in the best regulated "roughing," and when two cooks who fondly counted upon to feast on quails, turn out to be gumpowder Willie was very cross

The quail were as inconstant as usual one day we got a hundred birds with a couple of our starting point the next had not a bird — Still we enjoyed ourselves immensely—ladies and all—for there was plenty of sketching to be done, and the novelty of their life in the old fort amused them The only drawback was the absence of our Captain Pasley, who was obliged to remain behind at Beyrout on business for a week Even Frank was sociable for the first time in his life he appeared to be contented with himself and his surroundings.

I dare say the truth were known, that old Charley Napier was responsible for knocking all military importance out of the fort What remained of it had served once for a lazzaretto, and was portioned off in the usual Turkish style. A square block of solid masonry entered through a massive door over what had been a moat, but was now half filled up with rubbish, a small courtyard leading to a broad low staircase, and at the top a spacious hall out of which all the other rooms opened Such was our dwelling — A table made of two old doors supported on casks, and five wine-cased for chairs—such was our furniture. The ladies had their cots from the yacht, we our hammocks What would you more? If we had had nothing but our squad, and the red mullet which Templar's coxswain—a cunning hand with a net—brought us every morning, we should have lived like fighting cocks.

"How bright the fire flies are," said Kate Templar one night when we had finished dinner, and were grouped round the open window. See there is the date grove! They make quite a glow"

"Fire-flies don't give that red light, Katey" said her sister-in-law "What you see are sparks of a fire. Look, Willie! it's blazing now

"You're right, Susey "It's a fire, sure enough," replied Templar. "But what the deuce does it mean? I hope it's not some confounded fellows from the town coming to spoil our fun."

As he spoke another fire, and another, and another, broke out in the dark wood, and the distant hum of voices reached us on the night wind

"By Jove, it's a regular encampment," cried our host. "There'll be no shooting for us to-morrow Max, unless we two want to be bagged ourselves. I've seen that sort of fellows quadling on the Maranora, and they'll shoot a bird right in your face"

"Well," I replied, "the country's wide enough, if there's only a good pass of birds — Let them go their way and we'll go the other"

Anyhow, as a home to be interrupted, and we so comfortable,' grumbled Templar, lighting a cigar 'but I suppose they've as good a right here as we'

The silence which followed was broken by a voice below

Is that you Templar?"

'By Jove, it's the Pasha!" exclaimed White, starting up, "and two days before his time! His is jolly!

Come down—I want you. I want Max, too I—my horse is hurt—I won't keep you ten minutes Are you quite well, Mrs Templar? Ah what a surprise? Ah that's famous!—Come down like a good fellow, Templar at once"

We went down, and the first thing we saw was a tall Turk in green turban and flowing kaftan, leaning against a horse, which was certainly in a bad way As we approached, the Turk threw off his turban and beard, and there stood the Consul looking very pale

"Why, you old masquerader —," began White but Mussom cut him short

"There is no time for that sort of thing," he said "I put on this disguise to pass through you blackguards You will be attacked at daybreak"

Attacked!"

Yes attacked—twenty to one!"

In God's name, what for?"

Because that precious brother-in-law of yours has been at his old work—abusing the religion of the country"

Impossible! He cannot speak two words of the language"

"Look here" He had cut four papers, printed in Arabic and Turkish, as he spoke "You remember that Le never would keep with us He would go about alone—and why? To scatter broad ast these precious things You can't read it, but take my word for it who can, that I've is not an insult he has spared"

"Mussom, I cannot and will not believe ——"

"No matter; they believe and that's enough You might as well attempt disputing with a pack of hungry wolves as with them"

Who are they?"

"Hall Mecca pilgrims, egged on by their priest half Levantine scum, eager for plunder, about a hundred and fifty in all It was by the merest chance I heard what was on foot The whole country is up against you and only time to ride to send a message to the Consul and ride off like a thing is, how are we to hold out till help comes? What arms have you?"

There was that in Mussom's manner which put a stop to all further questioning The man was brave undoubtedly Templar and I had each a revolver and about thirty cartridges between us We had our fowling pieces but nothing but quail shot Crake, the cowell had borrowed a rifle from a Turk to amuse himself, and had a fair store of ammunition Mussom had his Trauter and carbine The mistake about biscuits provided us with a goodly supply of powder, but ball was sadly wanting We managed to send the ladies to bed without creating any alarm—the servants had help enough to scare before any assault could be made—and then set to work casting bullets, and loopholing such parts of the wall as commanded the gate, which was strengthened with posts, stones and props Meanwhile the uncommissioned officers were surveying the cove, swarm and Frenchified into our confidence, and bitterly did the latter deplore the destruction of his steward's pipes, pressed into the service to make postage do plumb a la mirailie

It was long past midnight before we had completed our preparations, and then Mussom took the command-in-chief

"If the lives, and more than the lives of those poor ladies are to depend upon us five," he said, "we have no hope except in perfect coolness and discipline If we are all to be captains, like the crews of a wreck, ship in a storm, we are lost I am only an old Bashi Bozouk, but I know the rudiments of our regulars I have not forgotten Kars and it is no time to stand on ceremony, and I tell you plainly that I have seen more of this sort of thing than you have If you put yourself under my orders the rest will obey, but I am quite willing to serve under you if you think it for the best If not, I'll be cook to one or the other, which is it to be?"

I was half angry with him or supposing I could be such a blockhead as to set myself upon my regular rank in such a case, and assured him that I would not only act under him, but do my best to make he s do so too. He pressed my hand, and there was an end of that question

"Now look here," he said, 'it seems to me that we have done all we can to defend that gate, but they may force it and then there'd be an ugly rush into the courtyard, which we cannot pretend to face There's no use in a last stand in the house which commands it either, worse luck Supposing you were to fall back on the vestibule, and a company or sappers, and all other luxuries of regular war, what should you do with that courtyard?"

I told him in two words

"Exactly!" he replied 'Go Templar off to bed and tell him his wife must not expect us to breakfast—anything by way of excuse—and join me below in an hour"

* * * * *

When we had stamped the last flagstone into its place, Mussom whispered, "If the worst comes, and I am dead, I will work this to it I fall, you know what to do, and in that case you must be ter tell Templar For the present let it rest between us two They will fight all the better at the gate if they think we have no other chance."

He told me that we could have an hour's rest before daybreak, and that as I was I soon fell asleep To about ten minutes (as it seemed to me) Mussom's hand was on my shoulder "To your post," he said, 'those rascals are gathering"

"And the ladies?"

"Are behaving beautifully. Templar has told them some of the truth"

"What, the whole?"

"God knows Never mind him He's no use except to get people into trouble"

The plan of defence was this We each had our number and our loop-holes, thus

75,000 Acres OF GOOD Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County, New York

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood The subscribers own two large tannories, located on the aforesaid tract, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a much lower rate than otherwise The timber is excellent in quality in all respects Those aforesaid tract of land is easy of access, being only from seven to fifteen miles from both the Black River & L and Black River Canal, which will afford a ready market. The land is comparatively level, well watered for farming purposes Moose River, which extends through the tract, is a large stream and empties into Black River at the village of Lowville, and is navigable to Black River At this point or junction of the rivers is a fall of sixty (60) feet, over which the waters of both rivers flow, thus affording an unlimited water power, (weighing say right in the Canal and at the Dam), to which Moose River will carry the immense amount of timber that may be purchased as above

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention The land will be sold in parcels to suit purchasers at a cheap rate or the timber alone permitted

LYNDE HOTEL

ROCKLAND, MAINE,

G. A. LYNDE, - - Proprietor.

THE HOUSE has been erected the present season, on the corner of Park and Main St Rockland, and is now open for the public patronage.

Clean beds, pleasant rooms, good fare, and careful attendance will be offered to the guests of this house, and no pains will be spared to make their stay agreeable. Nearly every room looks out upon the bay, and every room in the house is pleasant, thus affording to persons desirous of enjoying the sea breeze and spending the summer months, an opportunity to do so, without leaving on an island, where they can enjoy the sea air and nothing else.

Have taken especial pains to prepare convenient sample rooms

Carriages to take passengers to and from the house free of charge.

Good Livery Stable connected with the house, and good stable for transient horses.

AMERICAN AND FOREIGN PATENTS

R H EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks Designs,

No. 76 Sixth Street, opposite Tifft Street Bos on

After an extensive practice of upwards of twenty years, continues to secure patents in the United States, also in Great Britain France and other foreign countries Caveats Specifications, Assignments and all papers for Patents, executed on reasonable terms with despatch. Researches into Patents and legal opinions rendered on all matters touching the same Copies of the claims of any patent furnished by remitting one dollar. Reference to officials in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions

All necessity of a journey to Washington to procure a Patent, and the usual great delay there are here saved inventors.

TESTIMONIALS

"I regard Mr Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse

CHARLES MASON, Commissioner of Patents "I have no hesitation in assuring inventors that they can not employ a man more competent and trustworthy and more capable of putting their applications in a form to secure them a speedy and favorable consideration at the Patent Office. EDMUND BURKE

Late Commissioner of Patents "Mr R H. Eddy has made for me THIRTY applications for Patents having been successful in almost every case, which unmistakable proof of great tact and ability on his part, leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful services rendered on their cases, and at very reasonable charges
